1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

a. Claims 1-14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Murakami.

Murakami discloses a vehicle multimedia system (col.7, line 3) including plural multimedia units (col.7, lines 29-36), each multimedia unit comprising plural nodes, comprising first and second transceiver units 11/29 for receiving incoming signals and outputting signals in the ring network, and transmission means for sending signals to supervisory controller 7 (col.12, lines 24-38).

Although Murakami does not specifically state that signals are also received from the supervisory controller, since the controller controls the nodes, it would have been obvious to one of ordinary skill in the art to include secondary receiving means at each node unit to receive node control signals.

Regarding claim 2, Murakami teaches use of a ring bus (Fig. 1, Fig.4).

Regarding claim 3, use of radio receiver versus other type of receiver would have merely been dependent on what type of signal transmission medium was used.

Regarding claims 4-9, Murakami teaches use of navigation devices  
(col.7, lines 29-36).

2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brent A Swarthout whose telephone number is 703-305-4383. The examiner can normally be reached on M-F from 6:30 to 4:00.
